STONE16 - Label Specifications

The label is 1"x1/2" and is affixed to the underside of the product. It displays the company logo, the model number (STONE16), hardware version (1=USB powered, 2=Rechargeable LiPo battery powered, 3=coin cell battery powered), the FCC ID, and the IC ID. In addition, there is a space for a unique identifier for the device, which is printed on a separate sticker and affixed over the top of the label in the available space without covering the other information.
